Michael K Powell

Dear Michael Powell:

I have been informed that there are discussions under way to change cable service to a "pay per channel" system.

I am writing to urge you, in the strongest possible way, to oppose this move.

Pay per channel will severely diminish the variety of channel options that I currently have through cable, and will not save me any money. In fact, with the additional fees and equipment needs, it could end up costing me more.

While I understand the good intentions that are behind this, in order to give the consumer more control over what they view, this move will not only reduce the viewing options, but it will also destroy smaller channels and religious broadcasters.

A better way to ensure quality content on television is to enforce decency standards through fines and other regulatory actions.

Sincerely,

Candice Katayama  
949/278-6500

I am writing to urge you, in the strongest possible way, to oppose this move.

Pay per channel will severely diminish the variety of channel options that I currently have through cable, and will not save me any money. In fact, with the additional fees and equipment needs, it could end up costing me more.

While I understand the good intentions that are behind this, in order to give the consumer more control over what they view, this move will not only reduce the viewing options, but it will also destroy smaller channels and religious broadcasters.

A better way to ensure quality content on television is to enforce decency standards through fines and other regulatory actions.

Sincerely,

Angela Kernozek
